

# PAPER

## Help your student reach their full potential with Paper™

### FREE academic support is only a click away!

What's an integer? How do I structure an essay? What is the role of the nucleus in a cell? Can you show me how to solve Punnett squares? These are some of the questions students have before, during, and after school hours—and sometimes, learners could use some expert support.

Paper's **24/7 Educational Support System** helps students connect with expert tutors to work through their questions in any subject and receive feedback on written compositions—anytime, anywhere. Students can also master key math concepts with zero pressure by practicing math on Paper Missions. Students also have a host of other educational tools at their disposal to make them happy, confident learners.

## Here's how it works:

Your student needs academic support or wants to boost their knowledge or reading skills with no pressure.

Your student logs in to Paper to start a Live Help tutoring session, submit their writing to the Review Center, practice math on Paper Missions, or run through reading skills on Paper Reading.

They'll get the help they need—all while having fun and learning something new.

You'll watch your student gain confidence and lifelong learning skills.

## Here's what you need

1

A device with internet connection (laptop, Chrome-book, iPad, or phone).

2

A question, concept, or assignment your student needs help with.

3

A positive attitude!
