- ★ **Pace yourself:** If you find yourself stuck on a question, skip it, answer any other questions, and come back. Sometimes you can find helpful clues in other sections!
- ★ **Mark up your test booklet:** Whether it's mapping reading passages or writing out math work, writing your ideas down helps you remember key details as you make your way through the test.
- ★ **Read the questions carefully:** Some questions are designed to trick you by using words such as NOT, LEAST, or EXCEPT. When you see one, circle it to make sure you remember it as you start answering.
